

Greenspace Management Division

Application For Authorization for Permit Issuance for Private Contractor Pruning Large Diameter (over 10 inches) Branches

This is not a permit.

Approval of this application is a precursor to issuance of a tree permit for large branch pruning. If approved, a copy of this application shall be made part of the actual permit as issued by Development Services and must be posted along with the permit.

Application Process

Application specifications will be reviewed and preliminary approved by the Greenspace Management Division and must further be signed by the Coral Gables Assistant Public Works Director for Greenspace Management Division (as specifically required and administratively authorized signatory for the City Manager).

Applications must be submitted to the Greenspace Management Division a minimum of 10 workdays (M - F) prior to intended work date. Only work explicitly authorized herein shall be eligible for issuance of the required permit by Development Services as related to tree pruning.

Permits

Permits for tree pruning of large diameter branches shall only be issued to full tree service companies. Work may only be performed by or be directly supervised by an International Society of Arboriculture (ISA) Certified Arborist.

Failures

Failure to adhere to the specifications below will be grounds for disbarment from access to future permits and may further constitute a violation of Chapter 82 of the Coral Gables City Code. Said violations carry a fine up to \$500.00 per day.

Property

Address: _____ Date: _____
 Residential Commercial Other (specify) _____

Property Owner

Miami-Dade County Occupational License #: _____

Miami-Dade County Certificate of Competency #: _____

Project Details

Dates Work is to be Performed (Must be a non-holiday weekday):

Has the tree been previously trimmed by the applicant contractor? Yes No Dates if yes:

All work authorized for permitting is described and specifically authorized or limited below. In no case, however, shall pruning work violate the standards set forth in the American National Standards Institutes publication ANSI A300 (Part 1)-2001 Pruning, Tree Care Operations – Tree, Shrub, and other Woody Plant Maintenance – Standard Practices (Pruning), and ANSI Z133.1 – 2000 Pruning, Repairing, Maintaining, and Removing Trees, and Cutting Brush – Safety Requirements or the latest versions of same.

Description of Work to be Performed

Specify the scientific and common name of trees to be trimmed (key tree number to diagram)

Tree #1. _____

Tree #2. _____

Tree #3. _____

Tree #4. _____

Tree #5. _____

Tree #6. _____

Tree #7. _____

Tree #8. _____

Add pages if necessary for more trees

Those seeking permission to prune trees on the City Right of Way may request to do so only in the following categories with the following restrictions. Check the appropriate boxes and further explain work to be performed (refer to ANSI A300 (Part 1) -2001, pruning standard, for definitions and pruning practices):

Clean dead, diseased, and or broken branches from the tree canopy.

Specify if wood exceeding 10 inches in diameter is to be removed and if so where in the canopy it exists:

Approved Denied

Raise low limbs of a diameter of less than 10 inches that impede pedestrian and/or vehicular movement or traffic signage visibility. Ground clearances may not exceed the minimum necessary to accomplish the goal. Removal of limbs for this purpose that are greater than 2" in diameter is prohibited.

Approved Denied

Reduction Pruning is generally not permitted; however, reduction of selected branches may be permitted on a branch-by-branch basis.

- Specify the location of canopy reduction and reason for reduction. No cuts may exceed 10 inches in diameter. Generally, overall canopy reduction is not permitted.

- Successive year reduction cuts will not be permitted on the same limb.
- Under no circumstances shall more than 25 % of the leaf surface be removed from any branch or limb.
- Topping of trees is prohibited.

Approved Denied

Heading Cuts are generally not permitted; however, heading of selected branches may be permitted on a branch-by-branch basis.

- Specify the location in the canopy, the intended result of the action and the diameter of the cut that would result from the proposed heading cut.

- Topping of trees is prohibited.

Approved Denied

Diagram work site

Show location of all trees on right of way in relation to homes, streets, intersections, alleys, driveways, signage, and utilities. Show location of specific reduction and heading cuts and specific private property concerns. Label with house addresses, street names, tree species, tree number etc.:

N ↑

All debris emanating from trimming of trees on the Public Right of Way must be removed by the contractor.

Determination

Approval

Partial Approval: application for authorization for Public Works Department permit issuance for private contractor trimming of right of way trees is approved as Specified above.

Note to Public Works Department: Attach this application form to the Permit File and provide a copy for posting at the work site with permit. Require Insurance Certificate showing the City as additionally insured and a hold harmless agreement. Require a minimum \$1,500.00 bond. Annotate the permit to require that the Greenspace Management Division sign off on the tree trimming issue prior to release of bond and clearing of permit.
